

Specialist materials. Defined requirements.

Rare earths, minor metals and special ferro-alloys, alongside aluminium master alloys and copper- and nickel-based materials.

Better Future Metal Limited has trading contacts in the UK and Hong Kong. Our regional focus covers the UK, Hong Kong, Central Asia and Europe. North America is coming soon.

How to use this guide

Use the range below as an enquiry directory. Request the required grade, product form, quantity and delivery destination. Availability, analysis, packing and supporting documentation are confirmed for the proposed supply.

Contact the trading desk

Sales: sales@betterfuturemetal.com

General: info@betterfuturemetal.com

This guide lists enquiry categories. It is not a stock list, certificate of analysis or confirmed specification.

Core specialist families.

Minor metals

Bismuth / Cadmium / Chromium Metal / Cobalt Metal / Gallium / Germanium / Indium / Magnesium Metal / Manganese Metal (EMM) / Molybdenum Metal / Niobium / Selenium / Silicon Metal / Tantalum / Tungsten Metal / Zirconium / Antimony Ingots / Antimony Trisulphide (Sb₂S₃) / Antimony Metal

Rare earth metals & alloys

Lanthanum Metal / Cerium Metal / Praseodymium Metal / Neodymium Metal / PrNd / Didymium Alloy / Samarium Metal / Gadolinium Metal / Terbium Metal / Dysprosium Metal / Yttrium Metal / Scandium Metal / Mischmetal

Special ferro-alloys

Ferro Manganese / Ferro Niobium / Ferro Titanium / Ferro Boron / Ferro Vanadium / Ferro Tungsten / Ferro Zirconium / Ferro Phosphorus / Ferro Aluminium / Silico Manganese / Calcium Silicon / Ferro Silico Zirconium / Ferro Silico Magnesium / Ferro Molybdenum / Ferro Chrome / Ferro Silicon

Alloys & master alloys.

Aluminium master alloys & hardeners

Aluminium Titanium Boron (Al-Ti-B) Grain Refiner / Aluminium Titanium Hardener / Aluminium Strontium Modifier / Aluminium Silicon Hardener / Aluminium Copper Hardener / Aluminium Manganese Hardener / Aluminium Iron Hardener / Aluminium Zirconium Hardener / Aluminium Scandium Hardener / Aluminium Boron Hardener

Copper & copper alloys

Copper Cathodes (Grade A) / Brass (Cu-Zn) / Tin Bronze / Phosphor Bronze / Aluminium Bronze / Silicon Bronze / Cupronickel (Cu-Ni) / Beryllium Copper / Chromium Copper / Phosphor Copper Master Alloy

Nickel & nickel alloys

Nickel Cathodes / Nickel Briquettes / Nickel Powder / Inconel 625 (Alloy 625) / Inconel 718 (Alloy 718) / Monel 400 / Hastelloy C-276 / Nichrome 80/20 (Ni-Cr Resistance Alloy) / Ferro Nickel / Nickel Magnesium Master Alloy

Additional materials.

Ferrous metals

Iron (Fe) / Carbon Steel / Cast Iron / Stainless Steel / Manganese Steel / Chromium Steel / Vanadium Steel

Non-ferrous metals

Copper Cathodes / Aluminum Ingots / Zinc Ingots / Nickel Cathodes / Tin Ingots / Lead Ingots / Magnesium Alloys / Cobalt Metal / Titanium Sponge / Silicon Metal

Specialty metals & alloys

Titanium Alloys / Molybdenum Alloys / Tungsten Alloys / Nickel-Cerium Alloys / Inconel Superalloys / Hastelloy Alloys

Next step

For a combined enquiry, include a separate line for each material with its required grade, form and quantity. Attach your specification, then state packing, documentation and delivery requirements.
